

A photograph of three students in a classroom setting. A young woman with long dark hair and large hoop earrings is in the foreground, wearing a purple patterned hoodie and typing on a laptop. Behind her, a young man in a grey hoodie with yellow trim is looking at the laptop. In the background, another young woman with brown hair is looking down at a book. The scene is brightly lit, likely from a window on the right. An orange banner is overlaid on the left side of the image, and another orange banner is on the right side.

DESIRE2LEARN CAPTURE

Desire2Learn Capture empowers presenters to go beyond simply communicating so that audiences can connect like never before. Our portable and fully-automated webcast solutions do more and cost less, enabling you to capture and effortlessly deliver a synchronized audio, video and presentation Rich Media experience. With Desire2Learn Capture, programs are enhanced to provide an even more accessible and versatile online experience.

Desire2Learn Capture | Give a lecture in Toronto or New York and take questions in Tokyo. Students in North America can interact with peers in Europe as if they were learning in the same room. With Desire2Learn Capture, webcast learning is truly a collaborative process

THE WORLD IS YOUR CLASSROOM

REACH MORE STUDENTS | Access global education markets, expand the reach of your institution and provide a more expansive program. A virtual classroom has no seating limit.

MAKE LEARNING ACCESSIBLE | Students with special needs can be easily integrated into the webcasting experience. Desire2Learn Capture acts as a personal note-taker and has closed-captioning capabilities.

ENHANCE STUDENT PERFORMANCE | Students can quickly pinpoint the presentation they need to review, search within the presentation for information and participate via online comments.

PUT EVERYONE IN THE FRONT ROW | Every student sees the presenter and graphics up close. Everyone gets the best seat in the room.

SAVE MONEY | No need for new IT infrastructure or third-party software. Increase revenue by accessing a growing market in distance education.

IMPROVE THE IN-CLASS EXPERIENCE | Students can improve their concentration in the classroom knowing lectures are searchable online and available for viewing after class.

EXPERIENCE CAPTURE

THE BEST FEATURES FROM BOTH WORLDS

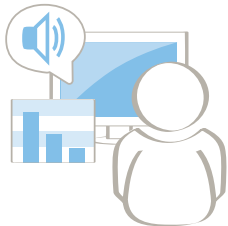

Traditional one-to-many webcasting technologies lack interactivity and support for visual aids. Conferencing provides highly interactive meetings but only a small number of viewers can take part. Desire2Learn Capture brings together benefits of both worlds to deliver a true front row experience to online audiences around the world: a participatory webcasting experience with a Media Rich presentation, scalable to a large audience at one time.

Desire2Learn Capture Rich Media Vs. Plain Video Webcasting

Sense of Presence

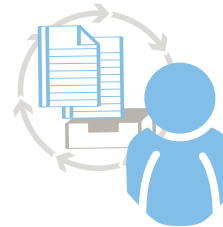

Unlike traditional video-only webcasting, Desire2Learn Capture ensures a participant can see the presenter, hear the presenter's voice and read the slides, all at the same time. Students see the presentation as if they were in the room with the presenter.

Interactivity

Desire2Learn Capture enables participants to submit questions, and view private and public text chat. Desire2Learn Capture makes it easy for students to interact in the webcast as if they are in the same room.

Desire2Learn Capture Rich Media Vs. Web Conferencing

Non-Intrusive Production Workflow

Presenters need no additional training or special software to deliver their presentation online as a webcast. Regardless of the presenter's knowledge of, and experience with, webcast technology, they can deliver a high-quality online experience.

Capture Quality

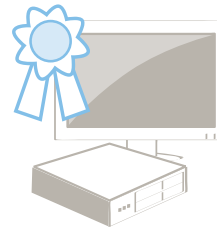

Some web conferencing systems stream in lower resolution video. Desire2Learn Capture delivers the same stream to many viewers and, in turn, can afford to deliver a much higher quality audio and video.

CAPTURE STATION

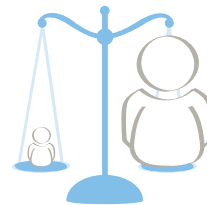

The Desire2Learn Capture Station is a powerful, easy-to-use way to deliver Rich Media presentations to online audiences, live or on-demand. Our production-grade Capture appliance records and webcasts: audio, video, and synchronized visual aids. With its streamlined interface, a webcast can be recorded with just a few clicks and can be completely automated for pre-scheduled events, requiring no input whatsoever from presenters.

A Complete Hardware Solution for Delivering Rich Media Presentations

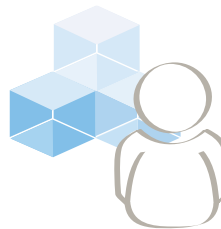

Live Webcasting & Reliable Recordings

High quality video, crystal clear sound and high-resolution video aids.

Automation Is Scalable

With a multi-station setup, schedule events to run webcasts simultaneously, multiplying the number of events you can run at one time.

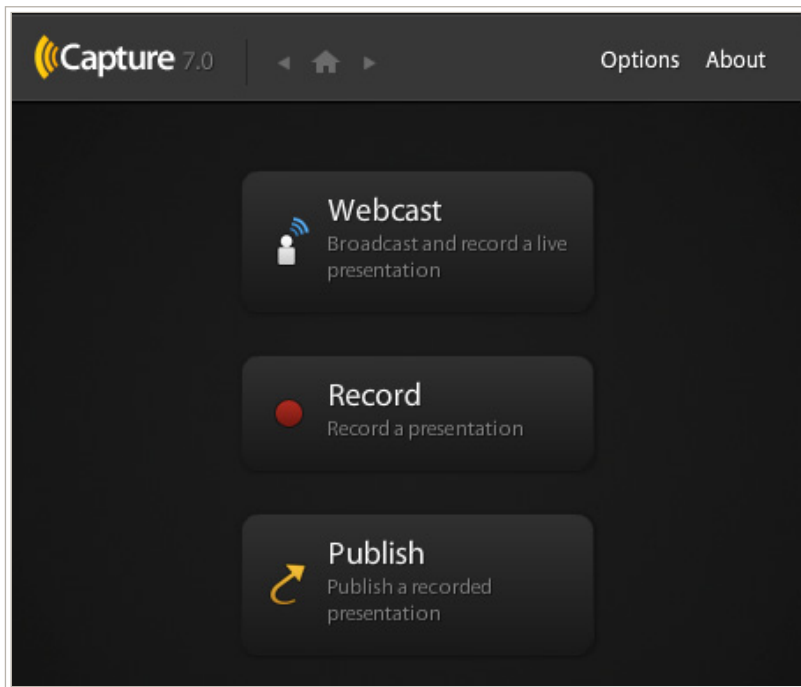

No Need To Reinvent Your Presentation

Desire2Learn Capture is designed to work unobtrusively so the system adapts to the presenter not the other way around.

CAPTURE SOFTWARE

In production scenarios where portability, flexibility, and cost are the primary concerns, Desire2Learn Capture Station Software is a convenient alternative to the Desire2Learn Capture Station Hardware. While Capture Stations are designed to provide unprecedented power, quality, and reliability in an all-in-one hardware package, Desire2Learn Capture Station Software can be installed on standard PC laptops or other machines to provide a lower-cost, highly portable way to capture Rich Media presentations.

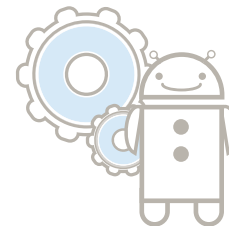

Capture Software | Webcast, record and publish presentations.

A Versatile Portable Software Solution for Rich Media Presentation Capture

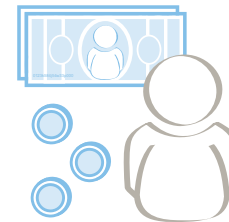

Present From Your Home or Office

Software can be installed directly on a presenter's laptop, allowing you to deliver a webcast presentation using nothing more than a webcam, microphone, and computer.

Portability

A compact, highly portable webcasting solution relieves the stress involved in transporting, setting up, and then tearing down a complex audio/video production setup.

Presentation Capture for Tight Budgets

Software gives organizations with tight budgets the option of creating low-cost webcasting solutions that suit your specific requirements.

CAPTURE PORTAL

Desire2Learn Capture Portal is a powerhouse for storing, viewing and engaging with social Rich Media presentations. The portal is the place on the Web where your online participants watch live and on-demand presentations and interact with other participants. It's also the tool for an administrator to schedule events, manage the media repository, complete post-production and customize the look and feel of the site.

The screenshot shows the main interface of the Desire2Learn Capture Portal. At the top, there is a navigation bar with 'Home', 'Calendar', 'Published Events', and 'Contact Us'. Below this is a video player displaying a presentation titled 'What Makes Change Hard?' by Tversky & Kahneman, Science. A search and navigation overlay is visible on the video, listing various topics like 'Healthy behaviour is all behaviour', 'Distress Tolerance', and 'Path of least resistance'. Below the video player, there is a 'Comments' section with a comment from Linda Thomas, dated 5 days ago. The comment discusses discrimination and personal experiences. To the right of the comment is a 'Presentation Info' section with details about the presentation, including the author David Dolomont and the date 1/17/2011. At the bottom, there is a 'Share' section with a URL and social media icons.

This block shows three overlapping screenshots of different presentations available on the portal. The top-left screenshot is from Berkeley Lab, featuring a man speaking in front of a slide titled 'Berkeley Lab Second Campus'. The top-right screenshot is titled 'Caring for Canada' and shows a woman speaking. The middle screenshot shows a presentation with a slide titled 'Program Objectives' and a list of objectives, with a man speaking in the background.

This screenshot shows the administrative interface of the Desire2Learn Capture Portal. It features a navigation bar with 'Home', 'Calendar', 'Published Events', and 'Contact Us'. Below the navigation bar, there are two main sections: 'Manage Content' and 'Hardware Status'. The 'Manage Content' section has options for 'Live' (Create, Manage) and 'Archived' (Manage Folders, Manage Presentations). The 'Hardware Status' section displays a table of presentation statuses:

Status	Item Name	Last Update
●	CAPTURE ED1020	Seconds Ago
●	CAPTURE IIX0202	Seconds Ago
●	CAPTURE CS1020	Seconds Ago
●	CAPTURE FIS1024b	15 Minutes Ago
●	CAPTURE KMD11024a	Seconds Ago
●	CAPTURE ED17257	Seconds Ago
●	CAPTURE CS17206	Seconds Ago
●	CAPTURE MED11020	Seconds Ago

At the bottom, there is a 'Community' section with 'Create' and 'Manage' options. The footer includes 'Copyright © 2011, Desire2Learn' and 'Powered by Desire2Learn Capture'.

CAPTURE PORTAL FEATURES

Live Rich Media Experience

With features such as multiple display options and full-screen mode, viewers can read even the most detailed slides and watch the webcast presentation in a truly cinematic experience. Participants can also use built-in text chat and picture-in-picture layout.

Portals for Departments & Campuses

Potentially serve an unlimited number of departments or campuses with their own Desire2Learn Capture portal, supporting full virtualization for your whole institution.

Post-Production in Browser Window

With Capture's Producer tool, trim videos, replace slides, adjust timing, add search keywords manually or extract keywords from slides using an Optical Character Recognition (OCR) tool, and upload a full presentation transcript in SubRip subtitle format.

To learn more about Desire2Learn Capture or other products, visit our website at: www.Desire2Learn.com/Capture or contact us: ContactUs@Desire2Learn.com

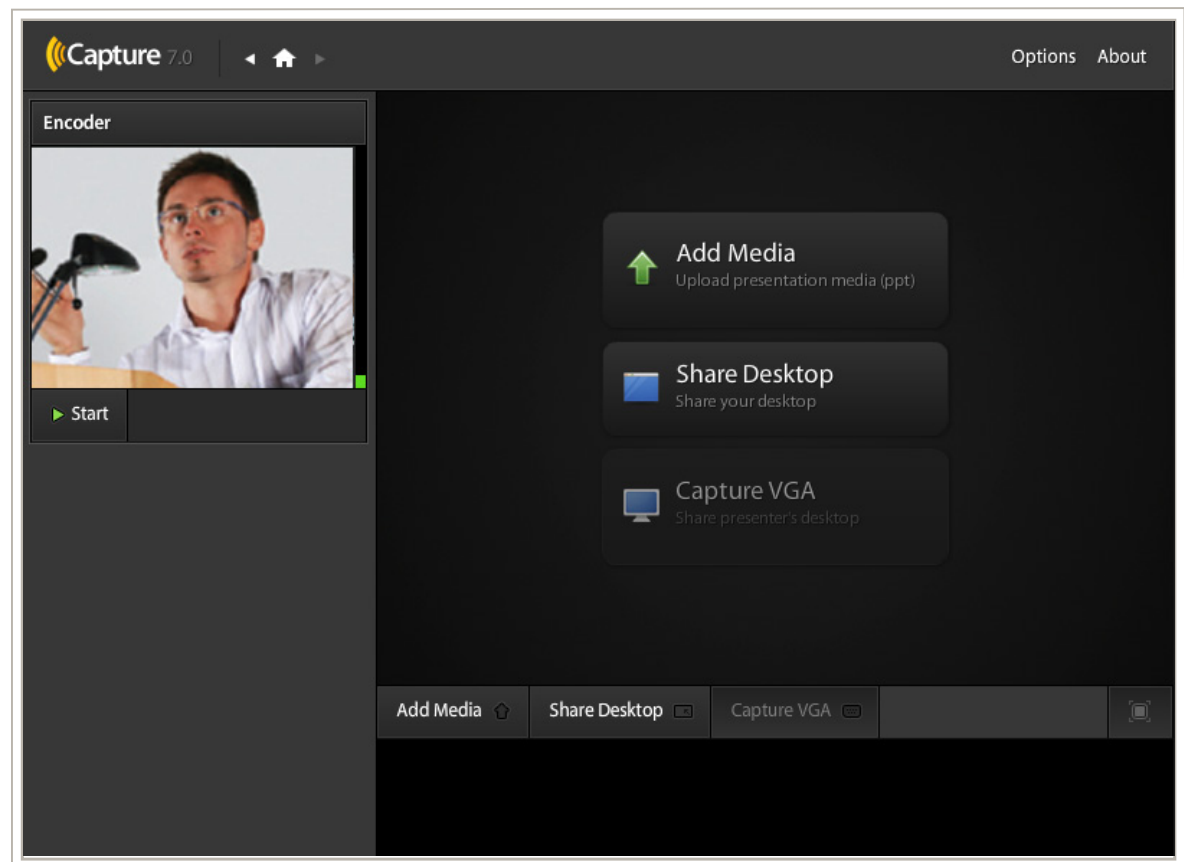

Access, Search and Comment

With the Capture Portal, build an excellent library of recorded events with the ability to not only locate the right presentation but also find a specific point in a presentation where a particular keyword is mentioned.

Monitor from Anywhere, Anytime

Set an automated capture schedule and monitor the Capture Stations from anywhere using any Web browser. Control and automate simultaneous webcasts from home, office or even on the go.
