DESIRE2LEARN DELIVERY SERVICES

We recognize that organizations look for much more than a stand-alone Learning Management System (LMS).

Our Delivery Services team works closely with our clients to ensure a seamless integration with their existing information technology (IT) investments. Our team is committed to working with clients through each phase of their project, from planning through to post-implementation follow-up, to ensure success.

KEY BENEFITS OF DELIVERY SERVICES

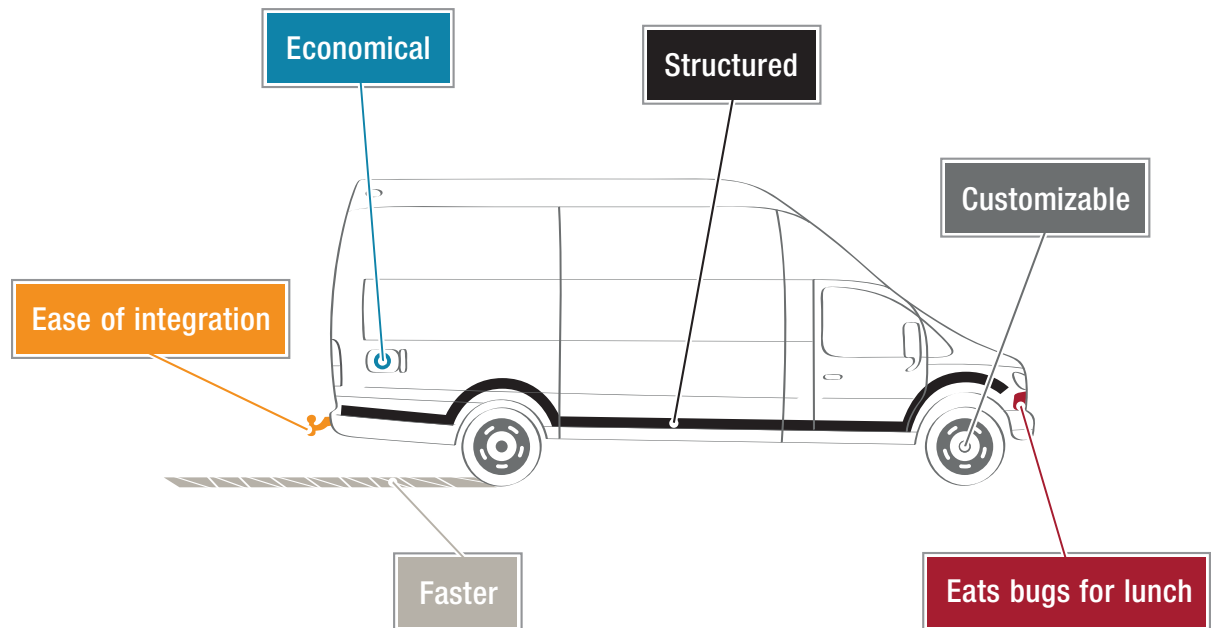

EXPERIENCE IMPLEMENTATION LEADERSHIP | Our in-depth expertise and collaborative approach ensures that our clients are well positioned for the future.

UNDERTAKE DEPENDABLE PROCESS | A structured process from planning to post-implementation ensures clients are equipped with a robust solution that delivers results.

INTEGRATE WITH CONFIDENCE | We work closely with clients to seamlessly integrate with their existing systems.

MINIMIZE TRANSITION TIME | Project planning expertise enables faster platform transition times for our clients.

CREATE UNIQUE SOLUTIONS | We understand no two clients are alike. Realizing an eLearning vision is essential to their institutional effectiveness and overall success. Our unique and customizable approach to each client ensures success.

We're with clients the whole way | From pre-planning of an implementation, to delivery, to on-going consulting, we stick with clients to ensure success

BRIDGE THE GAP TO ENTERPRISE APPLICATIONS

Integrate With Ease

To reduce time spent on integration and dramatically save on costs and maintenance, we have built standards-based middleware for the majority of system integrations, including those for larger clients with multiple locations and systems.

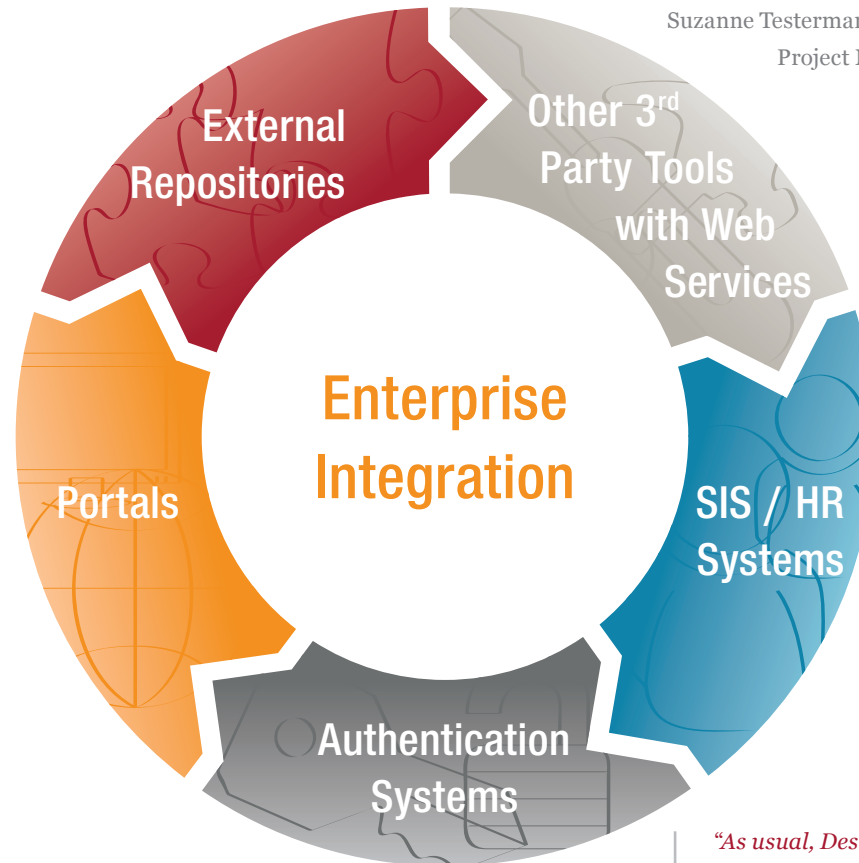

Through the use of middleware components and Web Services, Desire2Learn Learning Environment integrates with external systems including:

- Student Information Systems (SIS) and HR Systems
- Repositories and Libraries
- Authentication systems (e.g. LDAP, Active Directory)
- eCommerce systems
- Single Sign-On Authentication
- Portals

Solutions for Current and Future Needs

Our commitment to industry standards bridges the gap between what you need today and what you want in the future. With our innovative approach and dedication to standards, we've streamlined processes, reduced overhead, and given clients the ability to integrate with ease. Interoperability with other technology providers and organizations facilitates future growth and system adaptation.

Our team also has the expertise to investigate and propose solutions for new integration challenges. The result is the perfect solution for both current and future needs, even for the most demanding and rapidly growing programs.

"We went live in January and deployment was a huge success! Thanks to the staff at Desire2Learn."

Suzanne Testerman | Senior Instructional Designer / Project Manager, The University of Akron

"As usual, Desire2Learn delivers above and beyond what they promise. I was very pleasantly surprised to see that the upgrade finished so early."

Jennifer Leimer | Director of Distance Learning, Mississippi Gulf Coast Community College (MSVCC)
